HardArms™

Replacement Swingarms for the OTARI MTR-90 mkI & mkII

“At last, arms done right! Engineered and built to be as close to a single, solid piece of metal as is possible.”

Both upper & lower shafts are Case Hardened Steel.

Full length insertion of shaft w/ temperature controlled “shrink fit”. The body of the arm is virtually collapsed around the hardened shaft.

Upper & lower precision flat ground bearing seats for accurate heighting.

Supplied w/ bellville springs for preloading the lower bearing assembly.

No set screw flats needed with hardened steel. Simplifies installation

Straightness is guaranteed within .003” end to end in both planes

\$416.10/pair
\$219.00 / 1 piece

includes 2 year warranty see details below.

“Good Stuff “ like this is available only from:
